are

- https://clojuredocs.org/clojure.test/are

Checks multiple assertions with a template expression. See clojure.template/do-template for an explanation of templates.

```clojure
(are [x y] (= x y)
     2 (+ 1 1)
     4 (* 2 2))
```

Expands to:

```clojure
(do (is (= 2 (+ 1 1)))
    (is (= 4 (* 2 2))))
```
