

# Container shadow

```
Container(  
  decoration: BoxDecoration(  
    // border: Border.all(  
    //   width: 1,  
    //   color: primaryColor,  
    // ),  
    // border: Border.fromBorderSide(side)  
    color: bgColor,  
    boxShadow: [  
      BoxShadow(  
        color: primaryColor.withOpacity(0.5),  
        spreadRadius: 0,  
        blurRadius: 7,  
  
        offset: const Offset(0, 3), // changes position of shadow  
      ),  
    ],  
    borderRadius: const BorderRadius.all(Radius.circular(20) //  
POINT  
      ),  
  ), // POINT: B  
  // width: 100,  
  // height: 100,  
  child: Text(TimeUtil.yearMonthDay(log.year, log.month,  
log.day)),  
),
```
