

# Flutter error

## Unable to instantiate activity

- <https://webnautes.tistory.com/1320>

```
# build.gradle

android {
  ...
  compileOptions {
    sourceCompatibility JavaVersion.VERSION_1_8
    targetCompatibility JavaVersion.VERSION_1_8
  }
}
```

## Could not read script

**'/Users/[User]/sdk/flutter/packages/flutter\_tools/gradle/app\_plugin\_loader.gradle'**

- <https://stackoverflow.com/questions/61436827/error-fluttersdkpath-packages-flutter-tools-gradle-app-plugin-loader-gradle-w>

```
$ rm android/settings.gradle
$ flutter create .
```

## The method 'map' was called on null

[snippet.dart](#)

```
listProvinces?.map((Provinces value) {
  return new DropdownMenuItem<Provinces>(
    value: value,
    child: new Text(value.name, style: new TextStyle(fontSize: 16.0),),
  );
})?.toList() ?? [],
```

## 'GL\_EXT\_shader\_framebuffer\_fetch' : extension is not supported

Yes, it's wrong only in android emulator.
