

hammerspoon chooser

- <https://github.com/Hammerspoon/hammerspoon/issues/782>

```
local splitQuery = query:gsub("%S+", ".*")
local splitTable = {}
for i = 0, #splitQuery do
    splitTable[i] = string.sub(splitQuery, i, i)
end
local regex = table.concat(splitTable, ".*")
```
