

HeadlineMedium

```
class HeadlineMedium extends StatelessWidget {  
  const HeadlineMedium(this.text, {super.key});  
  final String? text;  
  
  @override  
  Widget build(BuildContext context) {  
    var style = Theme.of(context).textTheme.headlineMedium;  
    return StyleText(text, style: style);  
  }  
}
```
