## Leaflet

### HTML head 가

가 .

[snippet.html](#)

```
<link rel="stylesheet" href="<c:url value='/js/leaflet/leaflet.css' />" />
<script src="<c:url value='/js/leaflet/leaflet.js' />"></script>
```

JSTL <c:url ... /> .

HTML .

[snippet.html](#)

```
<div class="content-map" id="mapArea">
  <!-- -->
</div>
```

[snippet.javascript](#)

```
var map; //
//
map = L.map('mapArea', {});
```

## snippet.javascript

```
var geoserver = "10x.11x.10x.11x";

var baseOption = {
  minZoom : 15,
  maxZoom : 19
}

var base2dUrl = 'http://' + geoserver +
':9500/geoserver/www/tms/2d/base/{z}/{x}/{y}.png';
var base2d = L.tileLayer(base2dUrl, baseOption);
```

{z}/{x}/{y}

- z : Zoom
- x : Longitude
- y : Latitude

## snippet.javascript

```
base2d.addTo(map);
```

## snippet.html

```
<html>
  <head>
    <link rel="stylesheet" href="<c:url
value='/js/leaflet/leaflet.css' />" />
    <script src="<c:url value='/js/leaflet/leaflet.js'
/>"></script>
  </head>
  <body>
    <div class="content-map" id="mapArea">
```

```
<!--      -->
</div>

<script type="text/javascript">
  var map; //
  //
  map = L.map('mapArea', {});

  var geoserver = "10x.11x.10x.11x";

  var baseOption = {
    minZoom : 15,
    maxZoom : 19
  }

  var base2dUrl = 'http://' + geoserver +
':9500/geoserver/www/tms/2d/base/{z}/{x}/{y}.png';
  var base2d = L.tileLayer(base2dUrl, baseOption);

  base2d.addTo(map);
</script>
</body>
</html>
```
