Intro

The Lisk Academy aims to make learning about blockchain interactive and enjoyable. Just because some aspects of blockchain are highly technical, does not mean the learning experience has to be unenjoyable. Here we will explain some of the features scattered throughout the Lisk Academy, designed to help you get the most out of the time you spend reading about blockchain technology.

I. Blockchain Basics

Blockchain Use Cases

Now that we have understood the many theoretical aspects of blockchain technology, it is important that we investigate how it is being put to real use. In this chapter, we will focus on the real life applications of blockchain and how they are disrupting the world as we know it. Starting with the most mainstream example of blockchain use cases, Bitcoin, we will move on to see how blockchain is changing anything from government and finance, to shaping the future of Internet of Things and data storage.

II. Blockchain Business
