

numpy

```
brew install openblas  
brew install libjpeg zlib
```

<https://stackoverflow.com/questions/65745683/how-to-install-scipy-on-apple-silicon-arm-m1>

```
For compilers to find zlib you may need to set:  
set -gx LDFLAGS "-L/opt/homebrew/opt/zlib/lib"  
set -gx CPPFLAGS "-I/opt/homebrew/opt/zlib/include"
```
