

StyleText

```
class StyleText extends StatelessWidget {  
  const StyleText(this.text, {super.key, required this.style});  
  final String? text;  
  final TextStyle? style;  
  
  @override  
  Widget build(BuildContext context) {  
    if (text == null) return const SizedBox();  
    return Text(text!, style: style);  
  }  
}
```
