

syntax highlighter in DOKUWIKI

/conf/userstyle.css

snippet.javascript

```
body p {
    font-size: medium;
}

body .syntaxhighlighter .line {
    white-space: pre-wrap !important; /* make code wrap */
}
```

js . page.js 가 .

snippet.java

```
/*
    Syntax Highlighter Wrap
*/
function lineWrap(){
    var wrap = function () {
        var elems =
document.getElementsByClassName('syntaxhighlighter');
        for (var j = 0; j < elems.length; ++j) {
            var sh = elems[j];
            var gLines =
sh.getElementsByClassName('gutter')[0].getElementsByClassName('line');
            var cLines =
sh.getElementsByClassName('code')[0].getElementsByClassName('line');
            var stand = 15;
            for (var i = 0; i < gLines.length; ++i) {
                var h = jQuery(cLines[i]).height();
                if (h != stand) {
                    console.log(i);
                    gLines[i].setAttribute('style', 'height: ' + h +
'px !important;');
                }
            }
        }
    };
    var whenReady = function () {
        if (jQuery('.syntaxhighlighter').length === 0) {
            setTimeout(whenReady, 800);
        } else {
            wrap();
        }
    };
}
```

```
};  
whenReady();  
};  
lineWrap();  
jQuery(window).resize(function(){lineWrap()});
```
