

Django Model Unique

snippet.py

```
class Follow(BaseModel):  
    """팔로우"""  
    from_user = models.ForeignKey(User, related_name='from_user',  
on_delete=models.CASCADE)  
    to_user = models.ForeignKey(User, related_name='to_user',  
on_delete=models.CASCADE)  
  
    class Meta:  
        unique_together = ('from_user', 'to_user')
```
