

hammerspoon hotkey bind

```
function keyScript(mod, key, script)
  hs.hotkey.bind(mod, key, function()
    hs.osascript.applescript(script)
    -- hs.osascript.applescript("tell application \"System Events\" to key
code 123 using control down")
    -- hs.osascript.applescript("tell application \"Mission Control\" to
launch")
  end)
end

function keybindUp(mod, key, strokeMod, strokeKey)
  hs.hotkey.bind(mod, key, nil, function()
    hs.eventtap.keyStroke(strokeMod, strokeKey)
  end)
end
```
