

# instrospective

[graphql](#), [introspective](#), [schema](#), [type](#)

## \_\_schema

```
query {  
  __schema {  
    types {  
      name  
      description  
    }  
  }  
}
```

## \_\_type

```
query liftDetails {  
  __type(name: "Lift") {  
    name  
    fields {  
      name  
      description  
      type {  
        name  
      }  
    }  
  }  
}
```
