

k0s

```
sudo curl -sSLf https://get.k0s.sh | sudo sh
```

```
sudo k0s install controller --enable-worker
```

```
sudo k0s start
```

```
sudo k0s status
```

```
sudo k0s stop
```

```
sudo k0s reset
```

```
sudo k0s install controller --single -c k0s.yaml
```

```
sudo k0s install controller --enable-worker -c k0s.yaml
```

```
sudo k0s start
```
