leaflet

leaflet plugin

StyledLayerControl

1. Leaflet 가

snippet.javascript

```
<link rel="stylesheet"
href="http://cdn.leafletjs.com/leaflet-0.7.3/leaflet.css" />
<script
src="http://cdn.leafletjs.com/leaflet-0.7.3/leaflet.js"></script>
```

1. styledLayerControl.css, styledLayerControl.js 가 ( 가)

snippet.javascript

```
<link rel="stylesheet" href="../../css/styledLayerControl.css" />
<script src="../../src/styledLayerControl.js"></script>
```

1. styledLayerControl

snippet.javascript

```
var options = {
  container_width : "200px",
  container_maxHeight : "350px",
  group_maxHeight : "80px",
  exclusive : false
}

styledLayerControl = L.Control.styledLayerControl(null, null, options);
map.addControl(styledLayerControl);
```

- container\_width :
- container\_maxHeight :

- group\_maxHeight :
- exclusive :

가

snippet.javascript

```
control.addOverlay( layer, "LAYER NAME", {groupName : "GROUP NAME"} );
```

, expanded 가 .

snippet.javascript

```
control.addOverlay( layer, "LAYER NAME", {groupName : "GROUP NAME",  
expanded: true} );
```
