

showDialog

```
DialogService.to.alert(  
    title: t.dialog.delete.title,  
    content: controller.log!.content,  
    onSuccessed: () async {  
        await LogService.to.delete(controller.log);  
        Get.back();  
    },  
);
```
